

3.4.1 The Institution has a stated code of Ethics to check Malpractices and plagiarism in research

International Institute of Management Studies has clearly defined code of ethics and guideline to check malpractices and plagiarism in research. We have Software to check the plagiarism of research papers. We are motivating the faculty to follow the code of ethics. Our faculty members are maintaining honesty in writing research reports.

The faculties are expected to give credit to the concerned writer and do not publish any unpublished data of any other person without prior approval.

Guideline for Research Ethics: The guidelines for research ethics educates and monitors researchers to ensure high ethical conduct to be maintained in their work.

- The following principles are expected
- Honesty: Do not fabricate and misrepresent the data. Maintain honesty in report, result, methods, procedures and publications.
- Integrity: Commitments to be maintained. Consistency and sincerity in thought and action.
- Objectivity: Biasness in experimental design, data interpretation, peer review, grant writing and other aspects of research should be avoided.
- Confidentiality: Should be maintained in communication and data preservice as per requirements.
- Respect of Intellectual Property: Due credit should be given, do not publish unpublished data without permission.
