### The Swatch Bharat Abhiyan

The students of Sai Balaji Education Society celebrated Gandhi Jayanti with lot of enthusiasm creativity and with holiness.

We first prayed to our great freedom fighter Gandhi ji after that our rangoli specialists girl power started with there beautiful colourful rangoli's and after this we started with our today's initiative that was started on this day by our Prime Minister Narendra Modi Ji in the honour of our beloved Gandhi ji.

We all United and started "The Swatch Bharat Abhiyan" and as we all know that "Charity begins at home", so we took up the initiative of cleaning college surroundings. This day and this activity made all of us realise, that how important and nice it feels to be clean. Once again a very Happy Gandhi Jayanti to all of us .

Stress levels seem to be high in India compared to other countries, both developed and emerging, says a survey conducted by Cigna TTK Health Insurance.

About 89% of the population in India say they are suffering from stress compared to the global average of 86%. Nearly 75% of respondents here do not feel comfortable talking to a medical professional about their stress and cite cost as one of the barriers.

The Rotaract Club Of Sai Balaji organises Laughter Show and Open Mic Night.

### VISIT TO NAVKSHITIJ

15<sup>th</sup> July 2019

Navkshitij, Pune, believes that mentally challenged friends (MCF) are entitled to a fulfilling life experience. Through its workshops and adventure activities, Navkshitij adds a new dimension to the lives of these challenged adults. It takes mentally challenged adults under its wing, organizes activities for them, and encourages them to become as independent as possible by teaching them life skills and vocational skills. This NGO has shown that an individual may have a disability, but with compassion, the mind can be steered in a positive direction.

The organization's efforts are focused on the development of a curriculum that recognizes and respects the innate skills and abilities of MCF. Through various skill development programs and interactive sessions with mainstream society, Navkshitij assures that each such individual can become an accepted part of society and live a happy, dignified life.

The students of IIMS visited Navkshitij.

Throughout the world, the orphan crisis affects children in ways that *have* a direct physical impact on their lives. The medical challenges facing children who *have* been orphaned can include malnutrition, parasitic infections, and HIV/AIDS.

SBES Rotaract Club organizes Visit to Orphanage every year to infuse emotional and social quotient among the students this helps us to create ethical and strong managers for future.

#### A VISIT TO ORPHANAGE

2<sup>nd</sup> October 2018

An orphanage will care for tiny babies and also older children without parents. Orphanages care for children until they can be placed in homes and adopted. One distinct difference between orphanages and foster care is that modern day orphanages no longer exist in the United States, though they continue to be used in many countries around the world. In the United States, foster care and domestic adoption have taken the place of orphanages.

Rotaract Club of SBES organized "A VISIT TO ORPHANAGE" on 2<sup>nd</sup> October 2018. The initiative of students started at 2.00 pm to make the students understand need of society. The students of Rotaract club met the kids of Orphanage, spent time with them making them feel important and a part of the mainstream society. They shared stories, sang song, shared food etc. with the kids of orphanage and understood their need.

The social quotient of the students was developed by making them sensitive towards different sections of the society.

### Rotaract Club Activity SWACH BHARAT ABHIYAN

27<sup>th</sup> April 2017

Mahatma Gandhi rightly said, "Sanitation is more important than independence". **Swachh Bharat Abhiyan** was launched by the Government of India to solve the problems of sanitation and waste management in India by ensuring hygiene across the country. The main aim of the project is to create sanitation facilities for all and provide every rural family with a toilet by 2019.

Prime Minister Narendra Modi has directly linked clean India with the economic health of the country. This mission has provided a source of employment to many people, contributed to the GDP growth, and reduced health costs to an extent.

There is no doubt that cleanliness is interlinked with the country's tourism and global interests. More tourism will bring more revenue. It is important for India to display high standards of hygiene and cleanliness to change the overall global perception people have about our country.

The student of SBES conducted Swach Bharat Abhiyan, by initiating cleaning process in Kush Gao near the institute, where they interacted with the villagers and tried to make them understand the importance of keeping themselves as well as surroundings clean.

The efforts of the students and Rotaract club members were appreciated by the villagers and institute.

### Rotaract Club Activity Visit to Navkshitij

10<sup>th</sup> -13<sup>th</sup> June 2017

It has been felt that *differently-abled persons need special arrangements* in the environment for their mobility and independent functioning. It is also a fact that many institutes *have* architectural barriers that disabled *persons* find difficult for their day-to-day functioning.

While the *needs* of the *especially abled* often remain unrecognized, these *individuals* are making efforts to empower them with new innovations.

Navkshitij was established to improve the well-being of mentally challenged friends – we take them under our wing, organize activities, teach them life skills and vocational skills, encourage them to become as independent as possible, and nurture them in a compassionate environment.

SBES arranges visit to Navkshitij every year for the PGDM and PGDM Retail Students in order to develop IQ, EQ and SQ of the students. They meet these specially abeled people and spent time with them by sharing food and time.

**Old age homes** are mainly for people who got abandoned by their kids. They may have all facilities and amenities in an **old age** home, but they will not get the love they **need**. Love is a medicine which can cure many diseases.

The services and facilities offered usually vary from one place to another but most of them have basic facilities such as television, bed, medical team, reading room, etc. In addition, they offer three meals a day.

The students of IIMS every year visit OLD AGE HOME to meet a different section of society who live a lonely life, to share some happy moments with them by singing, dancing, telling stories, chatting with them etc. the students became emotional with this one to one interaction and were sensitive towards the elderly people of society and their family. Many of them pledged to take care of the senior citizens around them.

Certain activities help the institute to develop strong and ethical individuals who in turn will make the society better place to live.
